

Export Licence Statistics

The Control of Exports Act, 2008 provides the legal basis for export controls, the licensing regime and the overall regulatory environment relating to the export of dual use and military goods. In addition, a number of directly effective EU Regulations regulate the export of these goods from the EU.

The objective of providing reports under the Act is to provide the public with a much greater level of transparency about exports of controlled goods and services, and an understanding of how export control operates.

To provide more regular information about exports of controlled goods, the Minister decided to publish summary, interim data on the Department's website.

The summary data in the Table below for the second 6 months of 2016 is preliminary and subject to verification and change.

Overview Table

Type of Licence	No. of licences issued in July – Dec 2016	Value of licences issued in July - Dec 2016 (€M)
Individual Dual Use	200	175
Global Dual Use	21*	1,771*
Military	64	23
